This thread discusses the Content article: Bob Barr on The Colbert Report

I'm not impressed with Comedy Central's video player. It keeps restarting the video!

I am impressed with Barr's performance. He stated the positions clearly and articulately, and came across as having a sense of humor. Exposure on national late night TV, particularly to such an audience, and having the host admit he's a libertarian looks pretty good to me.

Is Barr here to stay or will he flip flop to a different party?

I would not trust barr for a second.He is just an oppurtunist looking for publicity. I think libertarians are making a mistake if they trust him, I cannot.

Sorry I just cannot trust the guy. I have plenty of time to make that decision.I cannot support anyone who is not pro-life. To me, that is the most important freedom.Without life, what do you have?Abortion is just government sanctioned murder.This is why I cannot join the lp.Until the pledge covers abortion it is just a sham?
