
NJLP Radio

Posted by redgar - 2008/03/31 14:24

I've added a "NJLP Radio" link to the News menu. It has a playlist of freedom music, with some talk shows thrown in, and several Libertarian radio ads.

We can basically list any mp3 stream. So if you find something that we can stream let me know the URL. Playlists.com claims that they handle the legality of the streams (and even pays royalties).
